

**REMARKS**

The above amendments are clerical in nature and are responsive to the Examiner's Amendment that accompanied the Notice of Allowance in this case. Entry of these amendments is respectfully requested. Each amendment is explained below.

In claim 1, the Examiner's amendment correctly reflected that the word "signal" was added, but did not underline it. Applicant's amendment above merely underlines the word "signal", as it should have been in the Examiner's Amendment, in order to accurately reflect the actual amendments made to the claim.

In claim 4, the Examiner's Amendment correctly reflected that the word "signal" was added, but did not underline it. Applicant's amendment above merely underlines the word "signal", as it should have been in the Examiner's Amendment, in order to accurately reflect the actual amendments made to the claim.

In claim 5, the Examiner's Amendment correctly reflected the final language of the claim, but failed to record that the word "control" was deleted. Applicant's amendment above merely adds the word "control" in strikethrough in order to accurately reflect the actual amendments made to the claim.

With respect to claim 23, the above amendment corrects a typographical error in the original claim that the Examiner and Applicant's undersigned representative agreed to during the various telephone conferences that led to the Examiner's Amendment and

**Application No. 09/677,651**

**Docket No. P-24,338-A USA**

Notice of Allowance. As far as Applicant is aware, the failure to record this amendment in the Examiner's Amendment was merely an oversight by the Office.

Applicant respectfully requests the Examiner to enter this amendment at the earliest possible date so that this application can proceed to issuance. The Examiner is invited to contact Applicant's undersigned counsel by telephone call in order to further the prosecution of this case in any way.

Respectfully submitted,

A handwritten signature in black ink, appearing to read "Theodore Naccarella", written over a horizontal line.
